

Özlem Ekinci

Experience Design & Strategy

Summary

Fintech-focused UX/Product Designer with over 6 years of experience designing digital banking, mobile payments, and investment products across regulated environments. Proven ability to lead cross-functional teams, scale design systems, and align UX strategies with business KPIs. Passionate about enhancing financial accessibility and crafting seamless user journeys for mobile-first platforms.

WORK EXPERIENCE

UX Designer

Commencis (10/2020 - PRESENT)

Clients: Deniz Bank, İş Bankası (İşCep), MetLife

- Core UX team member on Turkey's top digital banking app (İşCep), contributing to Open Banking, Payments, PFM, and AI bots.
- Reimagined user journeys for seamless onboarding, transaction flows, and personalized investment dashboards.
- Reduced support ticket volume by 10% and increased task completion by 15% via usability enhancements.
- Developed inclusive design approaches for accessibility across digital banking experiences.
- Orchestrated and monitored 5 workshops with 50 participants, including product owners and C-level executives, enhancing team collaboration and goal alignment.
- Launched MetLife Turkey's first mobile insurance platform, improving NPS and digital conversion.
- Collaborated with developers and analysts; led design peer reviews and QA.

UX Designer

Optiser Gozluk (09/2016 - 09/2020)

- Designed a B2B mobile platform for optical product distribution with integrated inventory logic.
- Built and maintained a component-based design system tailored for scale and cross-device use.
- Conducted structured UX research and implemented findings into rapid design cycles.

Product Designer

Uncharted (09/2013 - 06/2016)

- Spearheaded research initiatives for Soccket and subsequent products, boosting user engagement by 20%
- Managed the design and validation process for 100 prototypes, ensuring rigorous durability standards
